RWTH International Academy
Dual Post-Graduate Studies
Get ready for practice!

Theoretical knowledge is a very important basis for being successful. We believe that theory and practice should always be combined with each other. There is a need for students to get out of class, into labs and into companies to try out their knowledge and skills on real projects. This is why we offer:

Dual Post-Graduate Studies “German Engineering”
- hold a Bachelor or Master Degree in the field of Engineering,
- Bachelor students in their last year of studies may also apply for the programme,
- have a proven level of English of at least C1 in written and spoken English,
- already speak or be willing to learn German,
- German language requirements depend on the requirements of the internship.

Key facts:
- 6-month full-time programme, start in November 2016
- Student application process in June 2016
- Taught completely in English
- Exclusive courses at RWTH Aachen University
- The programme includes an internship of 4 ½ month in a German company or institution
- Career development service
- Tuition fees of 3,100 EUR per semester
- ECTS Credits: 30
- Funded by the State Government of North-Rhine Westphalia
