For those of you who would like to experience the unique research environment and opportunities available at GIST, the Global Intern Program (GIP) offers a wonderful opportunity for you to perform research at GIST by having you join a research lab for eight-weeks during the summer to receive valuable training and mentoring from the lab’s professor. The GIST GIP is only open to international undergraduate students who are currently seniors or master’s degree students. GIST GIP has received positive reviews from past participants because it offered a truly unique experience to broaden their research horizons.
